

Heelguard  
Grating Pty Ltd

# diamond series

*Seamless technology™*

**Product:** *Heelguard Grating  
Diamond series Stainless Steel  
Kitchen Bench Drain*

**Description:**

*Heelguard has used its experience in Architectural drainage to solve another design issue. Using under slung sinks to create a clean line minimalistic finish in a modern kitchen has resulted in issues with the lack of draining surfaces for glassware. This new flush mounted Stainless Steel grate and tray eliminates the pooling of water as well as prevents upturned glasses floating off the bench top. The waste is easily connected to the dishwasher entry of any standard sink trap and takes up no physical space as it is the thickness of the bench top and can be mounted above a dishwasher.*
